

Meeting the Needs

Ensuring All Can be made disciples

The Department of Family Catechesis invites all Catechetical, Pastoral Care & Youth Leaders to an in-service on evangelization and catechesis to those with disabilities.

The missionary mandate from our Lord to make disciples of all nations, includes people of every culture and language regardless of age, gender or ability. According to the US Census 1 in every 5 adults and nearly 1 in every 20 children have a disability. Our parishes and programs must be equipped to meet the diverse needs of all who seek to encounter and follow Christ. From behavior issues, to mobility impairments come for a practical day with experts from the National Catholic Partnership on Disabilities and various local agencies to give you the resources you need to respond.
